Re: Request for Fill Court Clerk Vacancy with Provisional Appointment

Dear Mr. Piaquadio:

As you know there is a vacancy for a full-time court clerk in my part of the court. A recent canvas of persons on a civil service list of court clerks did not include responses from at least three interested persons. A second canvass of persons on a civil service list of planning assistants resulted in the hiring of the only eligible person on that list, leaving one vacancy.

In light of the foregoing, this is request Town Board approval to hire a provisional full-time court clerk to serve until a new civil service list is available.

Thank you for you usual cooperation and courtesies.

Very truly yours,

RICHARD CLARINO
Town Justice, Town of Newburgh

Monarch Drive Playground Proposal

Our park at Monarch Drive has been in existence for approximately 40 years. Our community is growing at a rapid rate. This park is in the center of our town where it could be better utilized with the upgrade we are planning. At this time, we have put in new pickleball courts and have a play field for soccer, football, etc. We would like to replace the existing older playground and place the new playground closer to the courts, adding a picnic area and a sitting area. We have provided letters of support from the local business community. By doing the renovations and upgrades to this already beautiful area, it will allow families of all ages to come together and spend quality time outdoors. A senior living facility is also nearby. These improvements will allow our seniors to enjoy being out in the fresh air and spend time with their families. All of the items being used for this playground project are currently on state bid.

To whom it may concern:

I hope this letter finds you well. My name is James Manley, and I have been proud resident and business owner in the Town of Newburgh for the past 36 years. I am writing to express my strong support for the Monarch Drive Playground project.

As a business owner deeply invested in our community, I believe that projects like this are crucial for enhancing the beauty of our town and providing valuable opportunities for our residents to enjoy the great outdoors. The proposed playground location, situated near a large housing development and close to a senior community, will serve as a welcoming space for individuals and families of all ages. It is heartening to know that many generations will be able to enjoy this park, fostering community connections and encouraging active lifestyles.

In my experience, outdoor spaces play a significant role in the well-being of our residents, offering them a place to gather, engage, and create lasting memories. The Monarch Drive playground will not only beautify the area but provide a safe and enjoyable environment for children to play in and for families to spend quality time together.

I fully support this project and encourage others in our community to do the same. Together, we can create a vibrant and inviting space that reflects the spirit of the Town of Newburgh and enhances the quality of life for all its residents.

Thank you for considering my thoughts. I look forward to seeing the positive impact that the Monarch Drive Playground will have on our community

Working Together to Keep Everyone Safe

At Miracle® Recreation, safety is at the forefront of everything we do. That's why we are dedicated to meeting or exceeding the safety guidelines put in place for playground manufacturers. We not only comply, but also work closely with these organizations to develop guidelines that make play safer every day.

The American Society for Testing and Materials (ASTM) is a globally recognized leader in the development and delivery of material standards. Today, some 12,000 ASTM standards are used around the world to improve product quality, enhance safety, facilitate market access and trade, and build consumer confidence. ASTM recently published a new "Standard for Consumer Safety Performance Specification for Playground Equipment for Public Use" in 2017. Miracle Recreation closely follows these standards in all of our product designs and materials. Visit the ASTM website.

The Canadian Standard Association (CSA) is an independent standards development organization focusing on the Canadian market. Their most recent standard was revised in 2016 and is published as CAN/CSAZ614, Guideline on Children's Playspaces and Equipment Standard.

The Consumer Product Safety Commission (CPSC) is a government agency that sets product safety guidelines and practices. Their Handbook for Public Playground Safety, first published in 1981, includes guidelines for designing, constructing and maintaining public playgrounds. Visit the CPSC website.

Miracle Recreation is also a member in good standing of the International Play Equipment Manufacturer's Association (IPEMA), a member-driven international trade organization which represents and promotes an open market for manufacturers of play equipment. In the interest of playground safety, IPEMA provides a Third-Party Certification Service whereby a designated independent laboratory validates a participant's certification of conformance to ASTM F1487, Standard Consumer Safety Performance Specification for Playground Equipment for Public Use. The use of the corresponding logo in Miracle Recreation materials signifies that Miracle Recreation has received written validation from the independent laboratory that the product(s) associated with the use of the logo conforms with the requirements of the indicated standard. Check the IPEMA website to confirm product validation.

The International Standards Organization is a network of national standard institutes that work in partnership with international organizations, governments, industry, business and consumer representatives to develop universal standards for quality, environmental and management processes. Miracle Recreation's ISO 9001:2015 certification by SGS for its quality management system and ISO 14001:2015 certification by Intertek for its environmental management system demonstrates our quality and environmental commitment to you. Visit the SGS website.

Miracle Recreation offers playgrounds that have been certified by TUV Product Service, the recognized testing house designed by the European Union. This certification demonstrates compliance with the European Harmonized Standard for Commercial Play Equipment, EN 1176.

What's New

Line 3a has been modified to clarify how a disregarded entity completes this line. An LLC that is a disregarded entity should check the appropriate box for the tax classification of its owner. Otherwise, it should check the "LLC" box and enter its appropriate tax classification.

New line 3b has been added to this form. A flow-through entity is required to complete this line to indicate that it has direct or indirect foreign partners, owners, or beneficiaries when it provides the Form W-9 to another flow-through entity in which it has an ownership interest. This change is intended to provide a flow-through entity with information regarding the status of its indirect foreign partners, owners, or beneficiaries, so that it can satisfy any applicable reporting requirements. For example, a partnership that has any indirect foreign partners may be required to complete Schedules K-2 and K-3. See the Partnership Instructions for Schedules K-2 and K-3 (Form 1065).

Purpose of Form

Re: David LeRoy Promotion

I am requesting that the Board consider promoting David LeRoy to the position of Senior Working Leaker. David has been a loyal, productive sewer department worker for 20 years. He started out working a schedule that included every weekend for 15 years. He eventually had his schedule changed to a regular Monday thru Friday Maintenance Worker. These hours enabled him to work side by side with two experienced Sewer Department employees. When I retired, David was promoted to the position of Working Leader for the Sewer Department.

As of this date, Dave is the only union member without the "senior" in the Working Leader title. I believe his daily work responsibilities, assignment and supervising workers justifies the title of Senior Working Leader.

Thank you,

Steve Grogan

Re: Sewer Maintenance Worker

Due to the impending transfer of Daniel Stemmler to the Fleet Maintenance Department, the Town of Newburgh Sewer Department would like to start the process of filling the position of Sewer Maintenance Worker.

I will be retiring in the next two weeks and would feel more confident leaving, knowing that the department will not be left understaffed. It is also necessary for safety, excessive work load, etc.

If you have any questions, I would be happy to discuss them with you.
